About Open Policies

As you know, ICSE 2021 has embraced open science practices towards higher transparency of the scientific process and availability of research artifacts. With ICSE 2021 going virtual, more than ever we need to ensure access to archived preprints of accepted papers. To do so, authors from the Technical Track, JSEET, SEIP, SEIS, NIER, Demonstrations and Posters must make sure to:

- Provide a supporting statement on the data/software/analysis scripts/.../artifact availability (or lack thereof, which should be accompanied by reasons for non-disclosure) in a section named Data Availability after the Conclusion section.
- Self-archive your camera ready (NOT the typeset proof by IEEE).

Authors from other tracks can also self-archive their camera ready although it is not mandatory for them. The policies (https://conf.researchr.org/track/icse-2021/icse-2021-open-science-policies (https://conf.researchr.org/track/icse-2021/icse-2021-open-science-policies)) contain instructions and tutorials for this. In case of questions, do not hesitate to contact the open science chair Daniel Graziotin (daniel.graziotin@iste.uni-stuttgart.de (mailto:daniel.graziotin@iste.uni-stuttgart.de)).

Important Dates	🌐🕐 AoE (UTC-12h)
Wed 20 Jan 2021 NIER Acceptance Notification	
Sun 18 Oct 2020 NIER Submissions Deadline	

Program Committee (https://2021.icse-conferences.org/committee/icse-2021-new-ideas-and-emerging-results-program-committee)	
Patricia Lago **Vrije Universiteit Amsterdam**	NIER Co-Chair
